

Igniting Research Collaborations (IRC) Symposium

2018 IRC awardees share their cross-college collaborations and research from the past year

Monday, April 22nd 10 am – 1 pm Wednesday, April 24th 1 – 4 pm Both sessions in TODD 234

Monday, April 22nd 10:00 am - 1:00 pm in TODD 234

10:00 am – 10:35 am	Refreshments
10:35 am – 10:45 am	Welcome and introduction (Linda Dwoskin, ADR College of Pharmacy)
10:45 am – 11:00 am	Sylvie Garneau-Tsodikova (Pharmaceutical Sciences, College of Pharmacy), Samuel Awuah (Chemistry, College of Arts & Sciences). "Development of gold complexes as antimicrobial agents"
11:00 am – 11:15 am	Nathan DeWall (Psychology, College of Arts & Sciences), William Stoops (Behavioral Science, College of Medicine). "Social exclusion increases opioid craving: An fMRI study"
11:15 am – 11:30 am	Steven Van Lanen (Pharmaceutical Sciences, College of Pharmacy), Lisa Vaillancourt (Plant Pathology, College of Agriculture). "Antibiotics from Colletotrichum fungi"
11:30 am – 11:45 am	Kathleen Winter (Epidemiology, College of Public Health), Agatha Critchfield (OB/GYN, College of Medicine), Kathi Harp (Health Management & Policy, College of Public Health), Sheila Barnhart (Social Work, College of Social Work). "Perinatal hepatitis C knowledge and treatment gaps among HCV-infected women with opioid-use disorder"
11:45 am – 12:00 pm	Haining Zhu (Biochemistry, College of Medicine), David Fardo (Biostatistics, College of Public Health), Edward Kasarskis (Neurology, College of Medicine), Daret St Clair (Toxicology, College of Medicine). "Searching for genetic modifiers in familial ALS"
12:00 pm – 12:15 pm	Jen White (Entomology, College of Agriculture), Brian Stevenson (Microbiology, College of Medicine). "Identifying non-pathogenic tick endosymbionts for potential use in applied vector management"
12:15 pm – 12:30 pm	Christine Trinkle (Mechanical Enginineering, College of Engineering), Seth DeBolt (Horticulture, College of Agriculture), Jeffrey Wheeler (Horticulture, College of Agriculture). "Wine microfluidics: Predictive measurements of wine oxidation and aging"
12:30 pm – 12:45 pm	Dan Stone (Accounting, Gatton College of Business), Nathan Jacobs (Computer Science, College of Engineering,), Mark Lauersdorf (Linguistics, College of Arts & Sciences), Hong Xie (Accounting, Gatton College of Business). "Listening to markets—A temporal convolutional net analysis of conservatism in financial reporting"

Igniting Research Collaborations (IRC) Symposium

2018 IRC awardees share their cross-college collaborations and research from the past year

Monday, April 22nd 10 am – 1 pm Wednesday, April 24th 1 – 4 pm Both sessions in TODD 234

Wednesday, April 24th 1:00 pm - 4:00 pm in TODD 234

Refreshments

1:00 pm - 1:35 pm

1:35 pm – 1:45 pm	Welcome and introduction (Linda Dwoskin, ADR College of Pharmacy)
1:45 pm – 2:00 pm	Christopher Waters (Physiology, College of Medicine), Christine Trinkle (Mechanical Engineering, College of Engineering). "Ex vivo lung model for high throughput drug screening"
2:00 pm – 2:15 pm	Guoying Bing (Neuroscience, College of Arts & Sciences), Allan Butterfield (Chemistry, College of Arts & Science). "Fingolimod protects dopaminergic neurons against neuroinflammation after traumatic brain injury"
2:15 pm – 2:30 pm	Martha E. Grady (Mechanical Engineering, College of Engineering), Natalia Korotkova (Biochemistry, College of Medicine). "Mechanical role of wall teichoic acid in antimicrobial resistance of Enterococcus faecalis"
2:30 pm – 2:45 pm	Donna Schuman (Social Work, College of Social Work), Debra Moser (Nursing, College of Nursing), Jessica Domino (Psychology, VAMC), Karen Lawrence (Social Work, College of Social Work), JP Ginsberg (Psychology, USC). "Effectiveness of a heart rate variability biofeedback intervention and mobile app on cardiac autonomic functioning in Iraq/Afghanistan veterans with posttraumatic stress disorder"
2:45 pm – 3:00 pm	Aardra Kachroo (Plant Pathology), Pradeep Kachroo (Plant Pathology, College of Agriculture), Steven Van Lanen (Pharmaceutical Sciences, College of Pharmacy), David McLetchie (Biology, College of Arts & Sciences). "Generation and evolution of chemical signals in plant defense"
3:00 pm – 3:15 pm	Kevin B. McGowan (Linguistics, College of Arts & Sciences), Michael T. Johnson (Electrical & Computer Engineering, College of Engineering). "Apparatus and procedure for ultrasound investigation of velopharyngeal port aperture"
3:15 pm – 3:30 pm	Peter Nagy (Plant Pathology, College of Agriculture), Rebecca Dutch (Biochemistry, College of Medicine). "Identification of cellular targets of human respiratory viruses in yeast"
3:30 pm – 3:45 pm	Timothy S. McClintock (Physiology, College of Medicine), Chang-Guo Zhan (Pharmaceutical Sciences, College of Pharmacy), Dan Han (Neurology, College of Medicine). "Antagonists for tobacco smoke odor block cravings to smoke"
