

# Myron and Elaine Jacobson

## Innovation Award

*Inaugural Symposium at the  
UK College of Health Sciences*

The Karpf Auditorium in Pavilion A of UK Chandler Hospital  
February 20<sup>th</sup>, 2019 | 4:00pm - 6:00pm

*The lecture starts at 4, followed by a reception.*

University of Kentucky former faculty members and successful entrepreneurs Elaine and Myron "Mike" Jacobson co-founded Niadyne. Their pharmaceutical development company focuses on the discovery and development of uniquely efficacious molecules to prevent and treat skin conditions that result from an impaired skin barrier. **Learn about the Jacobson's research on the uses of niacin - particularly for anti-aging.**

"Niacin at the Epicenter of Healthy Life Span"

**Elaine L. Jacobson Ph.D.**

"Therapeutic Implications of Skin  
Barrier Impairment and Repair"

**Myron K. Jacobson Ph.D.**

With short presentations by the recipients of  
the inaugural **Myron and Elaine Jacobson  
Innovation Awards**
